4. Action Taken Report on Alumni Feedback on Syllabus for the year 2022-23

SL. NO	FOCAL POINT	PARENT'S SUGGESTIONS	ACTION TAKEN
1	Competency of the syllabus in meeting the demand of employment	The Alumni suggested that the Curriculum does provide employment opportunities to some extent and opportunities to progress for higher education but require more skill oriented courses to meet the demand of employment after graduation.	The college entrusted the Academic council of the college to introduce and implement certificate and add-on courses on skill based knowledge. Various committees and cells are set up to provide platform for students to undergo internship and placement opportunity
2	Certificate courses and extra courses offered by the college	The suggested that the college should continue to provide the students access to various certificate and add-on courses apart from the existing prescribed curriculum to enhance their skills.	The college has introduced various certificate courses like CCC, Tally, mushroom cultivation, vermin compost and spoken English are some active certificate course offered by the college. MoUs are signed to provide internship opportunities to students.
3	Create interest to pursue research	The Alumni are of the opinion that the existing curriculum provides little scope for pursuing research as research requires recent and updated knowledge and depth contents.	The curriculum is designed by the affiliating University. As such, the Academic council of the college convened a meeting and decided to write to the BOS of the University for further action. At institutional level, the college had initiated project related to course for students at the final year to provide scope for research.
