**International Literacy Day**  
**8<sup>th</sup> September 2022**  
**Report**

Don Bosco College Kohima held its first International Literacy Day on 8<sup>th</sup> September 2022 based on the theme “Technology Based Education ‘(Slogan writing competition) by Bosco Creativity Club. The program was chaired by Amongla Pongen Secretary of the Bosco creativity club which was followed by invocation led by Hiwale Tep .

A speech was conveyed by Dr. Amrita Singh, Coordinator of Bosco Creativity Club. She stated that it was the first Bosco creativity club activity of the year. She enlightened and shared her brief ideas on the theme ‘Technology based literacy’. She also highlighted on how literacy is an important part of our life and how technology has helped the students of the pandemic era to receive education. She gave a very brief speech on the importance of literacy and commemorated the beginning of the official part of the program which was the Slogan competition. In this program, students divided into teams of seven participated in the competition which consisted of the third and fifth semesters. Everyone put up a good effort in their creative artwork but the winning teams are as follows:-

Team1 (3<sup>rd</sup> semesters) winning the first position . Team2 (5<sup>th</sup> semesters) winning the second position. Team7 (3<sup>rd</sup> semesters) winning the third position.

Later the program ended with the announcement of the winners and a short photo session with the winners followed by a light refreshment.

## International Film festival 2023 Report

On April 27<sup>th</sup> and 28<sup>th</sup> of April 2023, the Don Bosco College, Kohima, Media Cell Team attended an International Film Festival organized by Sama Bhav, which was held in Alder College, Dr. Setu Memorial Hall, Sepfuzou. A variety of films based on celebrating gender, equity, diversity and inclusion was shown in the program.

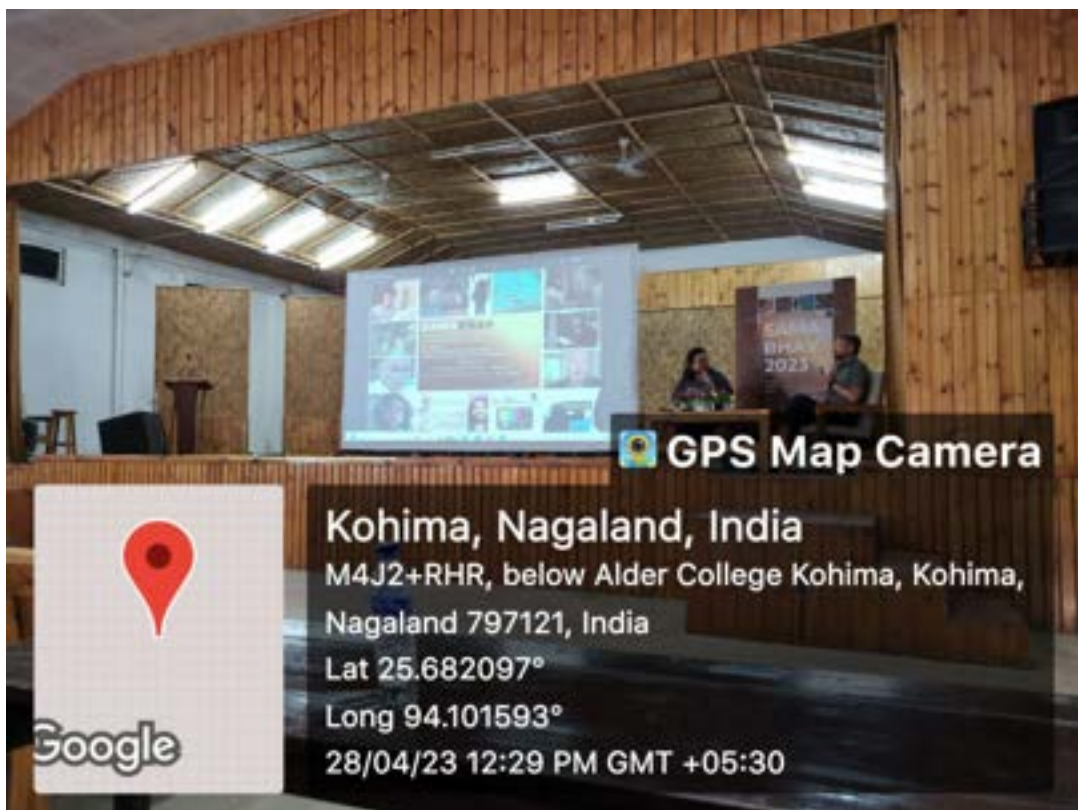

The program started with a special number and dance, followed by an introduction speech on the film festival by Mr. Nelson Deb who expressed the project as an aim to share the findings, build conversations and develop gender equality guidelines to ensure inclusive representation on screen and gender responsive, on-site institutional arrangements and facilities for women. The festival director and curator, Mr. Harish Sadani talked on the Sama Bhav , meaning Equanimity, a unique Travelling Film Festival on Gender Equity and Diversity, going across the length and breadth of India. Sama Bhav is a unique, one of its kind Film Festival, as the specially curated films include regional, national and international shorts, features and documentaries covering a range of gender and sexuality themes. The program proceeded with the screening of the films like TO-LET Toilet, Project Stree, Finding Faces, Gandhi Baat (Bad Thing), We Need To Talk, Binary Error, The Bystander Moment, Kohrra. The next screening of the films took place on 28<sup>th</sup> of April, films like Tall (Bottomland), Like A Moon Flower, Ujjhvo, Sandhya, The First Wedding and From The Shadows (Missing Girls). After each screening of the films , there was a session for discussion on the topics, interactions and questionnaires from both the professors, the invitees and students.

After the screening of all films, the vote of thanks and benediction was given by the Vice-Principal of Alder College, Sir Lorhu.

## ENVIRONMENTAL SCIENCE 1ST ASSIGNMENT

ACTIVITY ON ORGANIC GARDEN, 30th JULY, 2022. REPORTED BY: IDISING ILUNGLUNG

Don Bosco College, Kohima, Nagaland organised a one day activity under 'BoscoGreen Alliance' on the theme "Organic Garden" as an assignment for Environmental Science under Mrs Zavelu Keso Vero.

The activity started at 9:00 a.m. with attendance taking and going to the respective plot given to it. The departments had to strategize how to tackle the weeds, soften the soil for the next plantation, remove the old fences and replace it with new ones, how and where to properly dispose of the waste, and to make footpaths stable for going up and down while working and taking care of the garden.

The first half of the work went smoothly with clearing out the boundaries first, to mark and indicate where to work under it, and sort out more in detail where work was needed.

The second part of the work was more tedious and steeper, where the English dept. encountered a wasp's hive and got stung by it, making it a memorial day, in the end they were able to clear out both the weeds and the hive, which was two birds with one stone.

The students after the rough clearing the plot, more details in removing the remaining weeds came in next, where the soil was ploughed, the removal of the old unstabled fences, as more bamboos were placed and hammered down in places, making of footpaths for going up and down, where the work was done one after the other.

One by one each department left as the work was done in the end. The last remaining department was English and the work was done till 12:25am followed by geo tagged pictures, where the students cleaned up and ended the day with the refreshment provided by the college.

*Workshop on*  
**ONE DAY HANDS ON  
SEGREGATION OF WASTE**

**Date : 10th Aug 2023**

**Venue : Hall T2**

**Time : 08:50 A.M**

## **Segregation of waste Report**

**Kohima 10-08-23:** Don Bosco College in Collaboration with Kohima Municipal Council on 10th August 2023 organised program on Awareness Cum Training on Segregation of waste at Source and Compositing at T2 Hall. Mrs. T.Lanusenla Longkumer the administrator of Kohima Municipal Council as the speaker. She gave a brief introduction of waste management and how to divide the waste into Dry and wet category. This segregation can be also carried out as a segregation of biodegradable and non-biodegradable wastes. The biodegradable wastes are all the organic wastes and kitchen wastes. The non-biodegradable wastes can be further divided into: Recycle waste and Toxic Waste.

She further stated that, Segregation of waste is the first step in the process of waste management. It is done at that place itself where it was generated. After this waste is segregated and collected it goes through the process of 'sorting', because if we do not segregate the wastes properly then they will all get mixed up in the landfill which produce harmful gases and chemicals, which will affect the plants and animals in its vicinity and will pose a threat to the environment.

Earlier, the Program was chaired and Introduced by Mrs. Zavelu Kezo Assistant Professor Don Bosco College. It was a Success.

She also encouraged the students to spread awareness among their friends and family members.

It was an informative programme successfully conducted.

**Red Ribbon Club Don Bosco College Participation in the 'Red Run' Organized by District AIDS Prevention and Control Unit (DAPCU/DISHA) Kohima in partnership with Nagaland State AIDS Control Society (NSACS)**

**Kohima 12<sup>th</sup> August 2023:** The 'Red Run' event, organized by District AIDS Prevention and Control Unit (DAPCU/DISHA) Kohima in partnership with Nagaland State AIDS Control Society (NSACS), had the primary objective of promoting HIV/AIDS prevention awareness. As part of the Youth Festival 2023-2024 themed "Youth for HIV/AIDS," on 12th of August, the marathon aimed to involve students in disseminating crucial information on the HIV epidemic. The event comprised a 5km marathon for Red Ribbon Club members, representing the district, starting at old NST and concluding at Raj Bhavan area. The event was inaugurated by Rhosietho Nguori, Additional Deputy Commissioner of Kohima, who emphasized students' role as torchbearers in raising awareness. A total of 54 participants from six colleges, including 3 members (1 boy and 2 girls) from Red Ribbon Club, Don Bosco College Kohima, took part. Beyond the race, the 'Red Run' served as a platform to combat HIV/AIDS stigma and spread accurate information. A participant shared their experience, expressing excitement and determination despite challenges. The event successfully engaged students, conveyed its message, and underscored collective efforts against the epidemic while promoting education and advocacy.

## HIV/AIDS Awareness event Report by Don Bosco College Red Ribbon Club.

Don Bosco College's Red Ribbon Club demonstrated its commitment to promoting HIV/AIDS awareness by organizing an informative awareness event. The event aimed to educate participants about the intricacies of HIV/AIDS, emphasize the importance of awareness, and empower them to disseminate knowledge among their peers. The awareness event featured Sentimongla Tzudir, the District Program Officer at the District AIDS Prevention and Control Unit (DAPCU) in Kohima, as the guest speaker. Tzudir's comprehensive talk covered a wide range of critical topics related to HIV/AIDS. Her presentation focused on educating the youth about the disease, highlighting the significance of awareness, and encouraging them to become advocates of knowledge sharing within their social circles.

During the event, Tzudir elaborated on the following essential points:

**Understanding HIV/AIDS:** Tzudir provided an in-depth explanation of the intricacies of HIV/AIDS, including its transmission, progression, and impact on individuals and communities.

**Importance of Awareness:** The speaker stressed the importance of raising awareness about HIV/AIDS, underlining how knowledge dissemination can contribute to prevention and the reduction of stigma associated with the disease.

**Youth Empowerment:** Tzudir inspired the young participants to take on active roles as agents of knowledge dissemination among their peers. She encouraged them to share accurate information about HIV/AIDS, thereby empowering their friends and acquaintances to make informed decisions.

**Safe Sexual Behavior:** The presentation emphasized the practice of safe sexual behavior as a crucial measure for preventing the spread of HIV/AIDS. Tzudir provided practical information on protection and encouraged responsible sexual health practices.

The attendees were encouraged to actively engage with the subject matter and to ask questions, fostering a dynamic and interactive learning environment.

The event also shed light on the Red Ribbon Club's vital role in addressing the AIDS crisis, not only in Nagaland but also in broader contexts. The club was recognized for its dedication to spreading awareness, providing support, and combating the stigma associated with HIV/AIDS.

The event was attended by 37 enthusiastic members of the Red Ribbon Club. The participants expressed eagerness to learn and actively participated in discussions and interactions. Their engagement showcased their commitment to becoming informed advocates for HIV/AIDS awareness. The awareness event left participants enriched with invaluable insights and knowledge regarding HIV/AIDS. By bringing Sentimongla Tzudir's expertise to the forefront and emphasizing the importance of awareness, the event succeeded in equipping young individuals with the tools to make informed decisions about their sexual health and to contribute to the fight against HIV/AIDS.

The Don Bosco College's Red Ribbon Club's proactive efforts in hosting the informative awareness event significantly contributed to raising awareness about HIV/AIDS among the youth. The event's success in educating and empowering participants reflects the club's dedication to creating a more informed and responsible generation capable of tackling the challenges posed by HIV/AIDS.

# Mushroom Cultivation Introductory Course

**Don Bosco College Kohima**

From  
April 3<sup>rd</sup> to 5<sup>th</sup> May 2023

**This Course will guide about:**

- ✦ Introduction
- ✦ Types of Mushroom
- ✦ Mushroom Farm set up
- ✦ Cultivation process
- ✦ Post -harvest Process
- ✦ Mushroom Marketing

**Organized by:  
Bosco Green Alliance  
Don Bosco College Kohima**

**For Registration:-**

**7005327109**

**DON BOSCO GREEN ALLIANCE**

**Don Bosco College, Kohima**  
**Certificate Course**  
**On**  
**Mushroom Cultivation**

**Duration: 30**  
**Hours**

**Course Objectives:**

- Enable the students to identify edible and poisonous mushrooms
- Provide hands on training for the preparation of bed for mushroom cultivation and spawn production
- Give the students exposure to the experiences of experts and functioning mushroom farms
- Help the students to learn a means of self employment and income generation

**Course outcome:**

By successfully completing the course, students will be able to:

- Identify edible types of mushroom
- Gain the knowledge of cultivation of different types of edible mushrooms and spawn production
- Manage the diseases and pests of mushrooms
- Learn a means of self-employment and income generation

**Syllabus**

**Module 1: Introduction to mushrooms (2 hours)**

Mushrooms -Taxonomical rank -History and Scope of mushroom cultivation - Edible and Poisonous Mushrooms-Vegetative characters

**Module 2: Common edible mushrooms (2 Hours)**

Button mushroom (*Agaricus bisporus*), Milky mushroom (*Calocybe indica*), Oyster mushroom

(*Pleurotus sajorcaju*) and paddy straw mushroom (*Volvariella volvcea*).

**Module 3: Principles of mushroom cultivation (8 Hours)**

Structure and construction of mushroom house. Sterilization of substrates. Spawn production

-

culture media preparation- production of pure culture, mother spawn, and multiplication of spawn. Composting technology, mushroom bed preparation. Spawning, spawn running, harvesting. Cultivation of oyster and paddy straw mushroom. Problems in cultivation - diseases,

pests and nematodes, weed moulds and their management strategies.

**Module 4: Health benefits of mushrooms(2 Hours)**

Nutritional and medicinal values of mushrooms. Therapeutic aspects- antitumor effect

**Module 5: Post harvest technology: (4 Hours)**

Preservation of mushrooms - freezing, dry freezing, drying, canning, quality assurance and entrepreneurship. Value added products of mushrooms.

**Module 6: Training/ Workshop/ Field visit(12 Hours)**

Sterilization and sanitation of mushroom house, instruments and substrates

Preparation of mother culture, media preparation, inoculation, incubation and spawn production

Cultivation of oyster mushroom using paddy straw/agricultural wastes

**Report on Certificate Course on Mushroom Cultivation**

Bosco Green Alliance, in collaboration with the Departments of sociology and Botany at Don Bosco College, Kohima, successfully conducted its first certificate course on Mushroom Cultivation from April to May 2023. The main purpose of the course is aimed to equip the students with the skills and knowledge necessary to cultivate mushroom and encourage entrepreneurship in Nagaland. It also aimed to address unemployment concern by promoting Mushroom cultivation as a potential solution. The theory classes were commenced from April 3<sup>rd</sup> to May 5<sup>th</sup>, and participants were engaged in practical sessions held on 8<sup>th</sup>, 9<sup>th</sup> and 10<sup>th</sup> May 2023. These hands-on sessions allowed the students to apply the knowledge they had acquired from their theory classes and gain practical experience in the cultivation process.

A total of 51 students enrolled for the certificate course and five faculty members assisted for the smooth functioning of the course.

DATE: 20 JANUARY - 30 MAY 2022

**WASTE  
SORTING**

**RECYCLE  
WASTE**

**WASTE  
COMPOSTING**

## CERTIFICATE COURSE IN VERMI COMPOSTING

### Report of the Programme

SL	Activities	Hours
1	Orientation	1Hr
2	Bedding and Feeding	6 Hrs
3	Maintenance	Twice a week 4*6=24Hrs
4	Harvesting	4 Hrs
5	Workshop	3 Hrs
	<b>Total</b>	<b>36Hrs</b>

### AIMS & OBJECTIVE:

- Students will be able to compost in a limited space and describe the decomposing process.
- The students will get the knowledge of composting.
- Students will get the employment.
- They can generate employments.
- They will also turn towards organic farming.
- Will help to maintain the environment pollution free and

The detail of the course is as follows:

#### Focus:

To convert unwanted, organic matter, particularly food scraps and paper from College Campus into fertile soil.

**Name of the course:** Certificate Course in Vermicomposting

• **Level:** Certificate Course

• **Stream:** Arts stream

• **Subject:** Vermiculture/ vermicompost

### List of Tools and Equipment

- i) Spade : 02
- ii) Becha : 02
- iii) Water sprayer : 02
- iv) Sieve (4' X 3') : 01

### Raw material

- Wet biodegradable waste from the staff resident, Father's resident, college canteen, Tiffin waste from Classrooms and college Campus.
- The campus generates an average of approximately 10 kg of organic waste per day and 50 kg of processed food waste per day from canteens and staff residential area which are used in vermicompost.

**Culture of earthworm (*Eisenia foetida*)** As per requirement

**Duration:** 5 months (38 Hrs)

**Available infrastructure:** Cemented structure with three compartment, each with a dimension of 6ft \* 3ft \* 3ft

**Teaching Staff:** Teaching Staffs of Don Bosco College Kollam. Qualified and Experienced Professionals from Soil and Water Conservation Department GON.

### Examination structure & schedule:

- 1) 1-4 marks = 1 point, C<sup>+</sup> grade pass.
- 2) 5-9 Marks = 2 points, B<sup>+</sup> grade.
- 3) 10-14 Marks = 3 points, B<sup>-</sup> grade.
- 4) 15-18 Marks = 4 points, A<sup>+</sup> grade.
- 5) 19-20 Marks = 5 points, A<sup>-</sup> grade.

Award of Certificate carrying grades, after successful completion of course. Colorful certificate indicating grade will be awarded to the candidate.

1	10	C <sup>+</sup>
11	15	B <sup>+</sup>
16	20	B <sup>-</sup>
21	25	A <sup>+</sup>

### **Report on Vermicomposting Certificate Course**

Vermicompost Certificate Course was held on 20<sup>th</sup> January 2022 to 30<sup>th</sup> May 2022. There was both theory and practical class for the students. Some of the practical events and workshop were:

On 3<sup>rd</sup> March 2022, the 6<sup>th</sup> Semester students in collaboration with Bosco Green Alliance and department of Soil and Water Conservation Government of Nagaland. It was chaired by Ankita Priyadarshani, invocation by Hector, felicitation by Fr. Dr. P Suresh, talk by the resource person and vote of thanks by Micheal.

Mr. Ruokuosietuo Rokus Dist. Soil Conservation Officer Mokokchung was the resource person. He stressed on the importance of vermicomposting and how it helps in reducing environmental pollution. He also talked about the construction process, raw material for bedding, maintaining the moisture content and the right time for harvesting of the manures. And that the whole process takes about 2-3 months so we can produce sufficient amount of manures.

The Formal programme was followed by demonstration, where at the vermicomposting site he demonstrated about the filtering of the vermin from vermiwash and the vermicomposting bedding and structure.

And on 17<sup>th</sup> March 2022 As part of the practical class, Bosco Green Alliance conducted a field work in the vermicompost pit of the college on 17<sup>th</sup> March, 2022 . The work was led by 6<sup>th</sup> semester students where 10 students were selected from each department along with Sir Sanihe Ariijii, Asst. Professor , coordinator of Bosco Green Alliance were present.

The activity included collecting dry grasses and plants which were moulded down by knife and then lay out for further drying in front of vermi compost pit to feed them after a week along with organic waste materials. After the preparation of vermicompost feed was done, filterering of the harvested vermi was carried out by few students.

The Certificate course ended on 30<sup>th</sup> May 2022 where the certificates were issued to the students by Mr. Sanihe Ariijii, Coordinator Bosco Green Alliance and Mr. Ruokuosietuo Rokus, Dist. Soil Conservation Officer, Mokokchung Nagaland.
