## *College Anthem*

1. Shining bright as lone star in the sky 'bove  
And as lovely flower sweet in its full bloom  
Stands our College magnificent and splendid  
Spreading knowledge and light far and wide  
D-O-N B-O-S-C-O Don Bosco  
Is the name of our college you know it  
It's our Alma Mater and we love her  
It's our pride, our joy none can deny.

***For Don Bosco is our Guide and Father  
Showing the path of true knowledge and virtue  
Yes Don Bosco is great friend of all youth  
Let us sing of his glory and praise.***

2. We're the students of Don Bosco Kohima,  
You can tell it from our smile and smartness  
In the class, in the field and everywhere,  
We all do all our duties with cheer

Gently flutters the flag of our college,  
Neath its shadow we all march to conquer  
Whether sunshine or rain doesn't matter,  
With Don Bosco there's nothing to fear.

3. We may go North and South and East even West  
And yet we'll never forget our college,  
It's the cradle of love and joy purest  
It's the source of our wisdom and light  
Here we work, study, pray, sing and we play  
There is no room for gloom and idleness:  
For to be good and learned we all seek,  
With our motto of DUTY and JOY.

**Kohima 10-08-23:** Don Bosco College in Collaboration with Kohima Municipal Council on 10th August 2023 organised program on Awareness Cum Training on Segregation of waste at Source and Compositing at T2 Hall. Mrs. T.Lanusenla Longkumer the administrator of Kohima Municipal Council as the speaker. She gave a brief introduction of waste management and how to divide the waste into Dry and wet category. This segregation can be also carried out as a segregation of biodegradable and non-biodegradable wastes. The biodegradable wastes are all the organic wastes and kitchen wastes. The non-biodegradable wastes can be further divided into: Recycle waste and Toxic Waste.

She further stated that, Segregation of waste is the first step in the process of waste management. It is done at that place itself where it was generated. After this waste is segregated and collected it goes through the process of 'sorting', because if we do not segregate the wastes properly then they will all get mixed up in the landfill which Produce harmful gases and chemicals, which will affect the plants and animals in its vicinity and will pose a threat to the environment.

Earlier, the Program was chaired and Introduced by Mrs. Zavelu Kezo Assistant Professor Don Bosco College. It was a Success.
