Report on Departmental Activity (Political Science Department)

Title: Orientation on Management and Administration of Pulie Badze cum Cleanliness Drive

Date: 4th February 2023

Venue: Pulie Badze

Time: 9:00 am - 2:00 pm

Preamble:

A departmental activity was conducted on the 4th of February, 2023 at Pulie Badze with the main objective to give the students an understanding of the management and administration of Pulie Badze, and also to help the JNCET by carrying out a cleanliness drive. This activity has been organized by the Political Science Department of Don Bosco College Kohima (DBCK) in collaboration with Jotsoma Nature Conservation and Eco-Tourism (JNCET).

Participants' Profile:

DBCK 4th semester students of Political Science Department (Shift 1 and 2), Assistant Professors of DBCK Political Science Department and resource persons (JNCET).

Description about the Program:

The orientation program on the management and administration of Pulie Badze was chaired by Nouisituo Zhale. The program was graced by the presence of resource person Mr. Zhakielie Rino (Member of Jotsoma Nature Conservation and Eco-Tourism JNCET). The whole procession was brief and concise, targeting maximum attention on the part of the students to grasp what the speaker had in store for them.

Nungsangyanger brought upon the blessings to start the day's program.

Followingly, the resource person took up his time to enlighten the students with his valuable information. He highlighted the importance of the village council of Jotsoma and their valuable assistance to the JNCET, the need for a more efficient assistance on the part of the State Government because funds have been insufficient to manage such a vast mountain area for public attraction. The speaker called upon the students to help him convey his message to the people, which is "to love and preserve the area of Pulie Badze, not to destroy or steal any vegetation and to keep the mountain area clean, because Pulie Badze belongs to everyone and not to one person alone." He showed his appreciation for the college and other bodies who have shown genuine interest and concern to know about and help in the management and administration of Pulie Badze. The speaker gave time for questioning and when students were satisfied with the answers, he concluded his talk session.

To end the program, Kevedülü Nakro proposed vote of thanks.

The students carried out a cleanliness drive session after the program to extend their appreciation to the JNCET for allowing the study visit.

Feedback:

The departmental activity has helped in building an understanding of administration and management outside an educational institution context, how help from voluntary bodies can be useful in the process of administering, especially in case of public owned structures.

Future Perspectives:

The department will look forward to conduct such activities in order to help students understand the workings of everyday bodies, structures, organizations, etc., to enrich and equip them with the knowledge and skills to work competently in the future.
