Internship Report

Internship report submitted by Veciselü Lohe of 4th semester Commerce Department Don Bosco College, Kohima. The internship was done at Été coffee, Kohima as part of summer internship from 1st June – 1st July 2023.

Été coffee is the first Specialty Coffee Roasting Company in Northeast India, established on the 2nd of July 2016. Locally shade grown by small farm holders, processed and roasted in Nagaland. It is a sole proprietorship firm with Sir Lichan Humtsoe as the CEO and founder of Été coffee along with six employees working under him at present.

They have a full-fledged roastery and production unit, retail line, consultancy service, two coffee breweries, a coffee school, four observation and research farms, coffee lab services, equipment store. Été coffee supplies to 24 cafes across Nagaland and beyond.

During this internship, I was able to get real hands-on experience on how a company works, how all the employees work together with consistency, efficiency and integrity in order to run the company smoothly. I was also sponsored by the company for my Barista training through which I finished my foundational course of the Barista Training Programme. Not only did I learn about the workings of the company but was also mentored by Sir Lichan on how to be a good leader, how to be a responsible citizen.

I would express my profound thanks to the principal and all the Lectures of Commerce Department for enabling me to take the internship at Été coffee.
