2023

(FYUGP)

(1st Semester)

ENVIRONMENTAL SCIENCE

Paper Code. : MD-1/EVS

Full Marks: 37½ Pass Marks: 40%

Time: 2 hours

(PART : B—DESCRIPTIVE)

(Marks : 25)

The figures in the margin indicate full marks for the questions

Answer any five of the following questions: $5 \times 5 = 25$

- 1. Discuss the various steps involved in the solid waste management.
- Explain the structure and function of ecosystem.
- 3. Discuss the biogeographical regions/zones in India.

24L/407a

(Turn Over)

- **4.** What measures as an individual will you take to conserve natural resources?
- **5.** Explain the effects and mitigation measures of air pollution.
- 6. Explain the concept and scope of environmental management.
- 7. What are the main steps involved in rescue planning and relief works?
- 8. Define environmental hazard. Explain the types of environmental hazards.
- 9. Write a brief account on constitutional provisions for environment protection in India.
- 10. Discuss the value of biodiversity.

13. Disa	Disaster management includes		
(a)	mitigation (suc) (suc)		
(b)	reconstruction ()		
(c)	rehabilitation ()		
(d)	All of the above ()		
14. Pop	ulation explosion occurs due to		
(a)	high birthrate ()		
(b)	high death rate ()		
(c)	low birthrate ()		
(d)	high birthrate and low death rate ()		
15. An e	event that has the potential to cause harm is		
(a)	risk ()		
(b)	danger ()		
(c)	hazard ()		
(d)	vulnerability ()		
MD-1/EVS /407	CONTRACT CONTRACTOR		

B. Answer any five of the following questions:

 $1 \times 5 = 5$

1. Define ecological succession.

2. What is sustainable development?

3. Define water pollution.

4. Define vulnerability.

5. What is 3R?

6. Mention two factors responsible for population growth.

7. What is meant by environmental law?

8. Define disaster mitigation.
